**I have a pros-thet-ic eye,
it is made from a special plastic.**

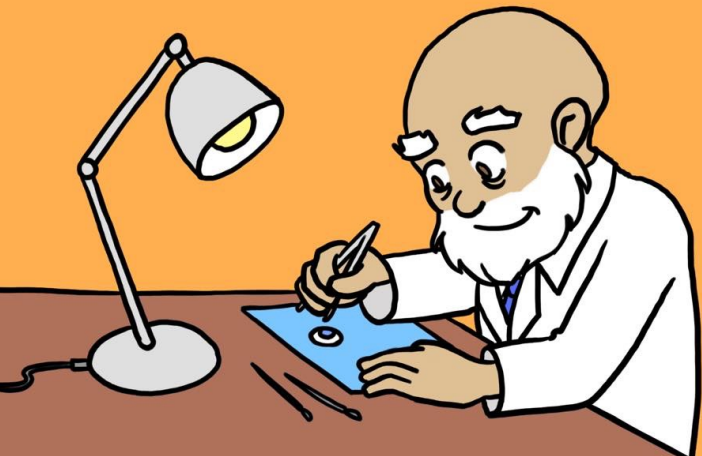

**My special eye was made just
for me after I had cancer.**

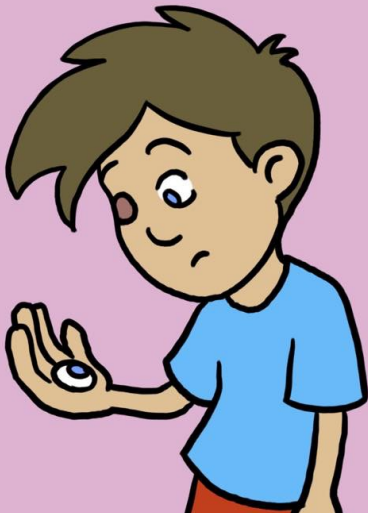

**Sometimes my eye has to
come out for a bath.**

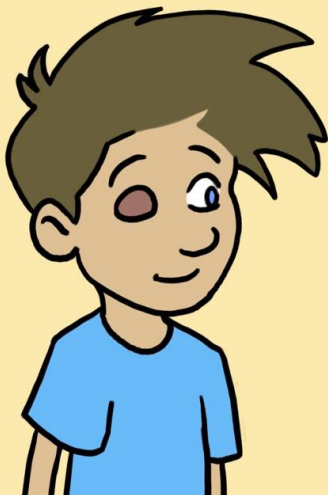

**Sometimes my eye has to come
out so my doctor can adjust it.
This helps my bones know
where to grow.**

**Sometimes my eye falls out and
I have to wait until I'm home to
put it back in.**

When I don't have my eye it makes me feel different. But I try to remember everyone is different in their own way.

**I have a prosthetic eye.
It is very special and
very important.**

The End
