

# My PICC Line

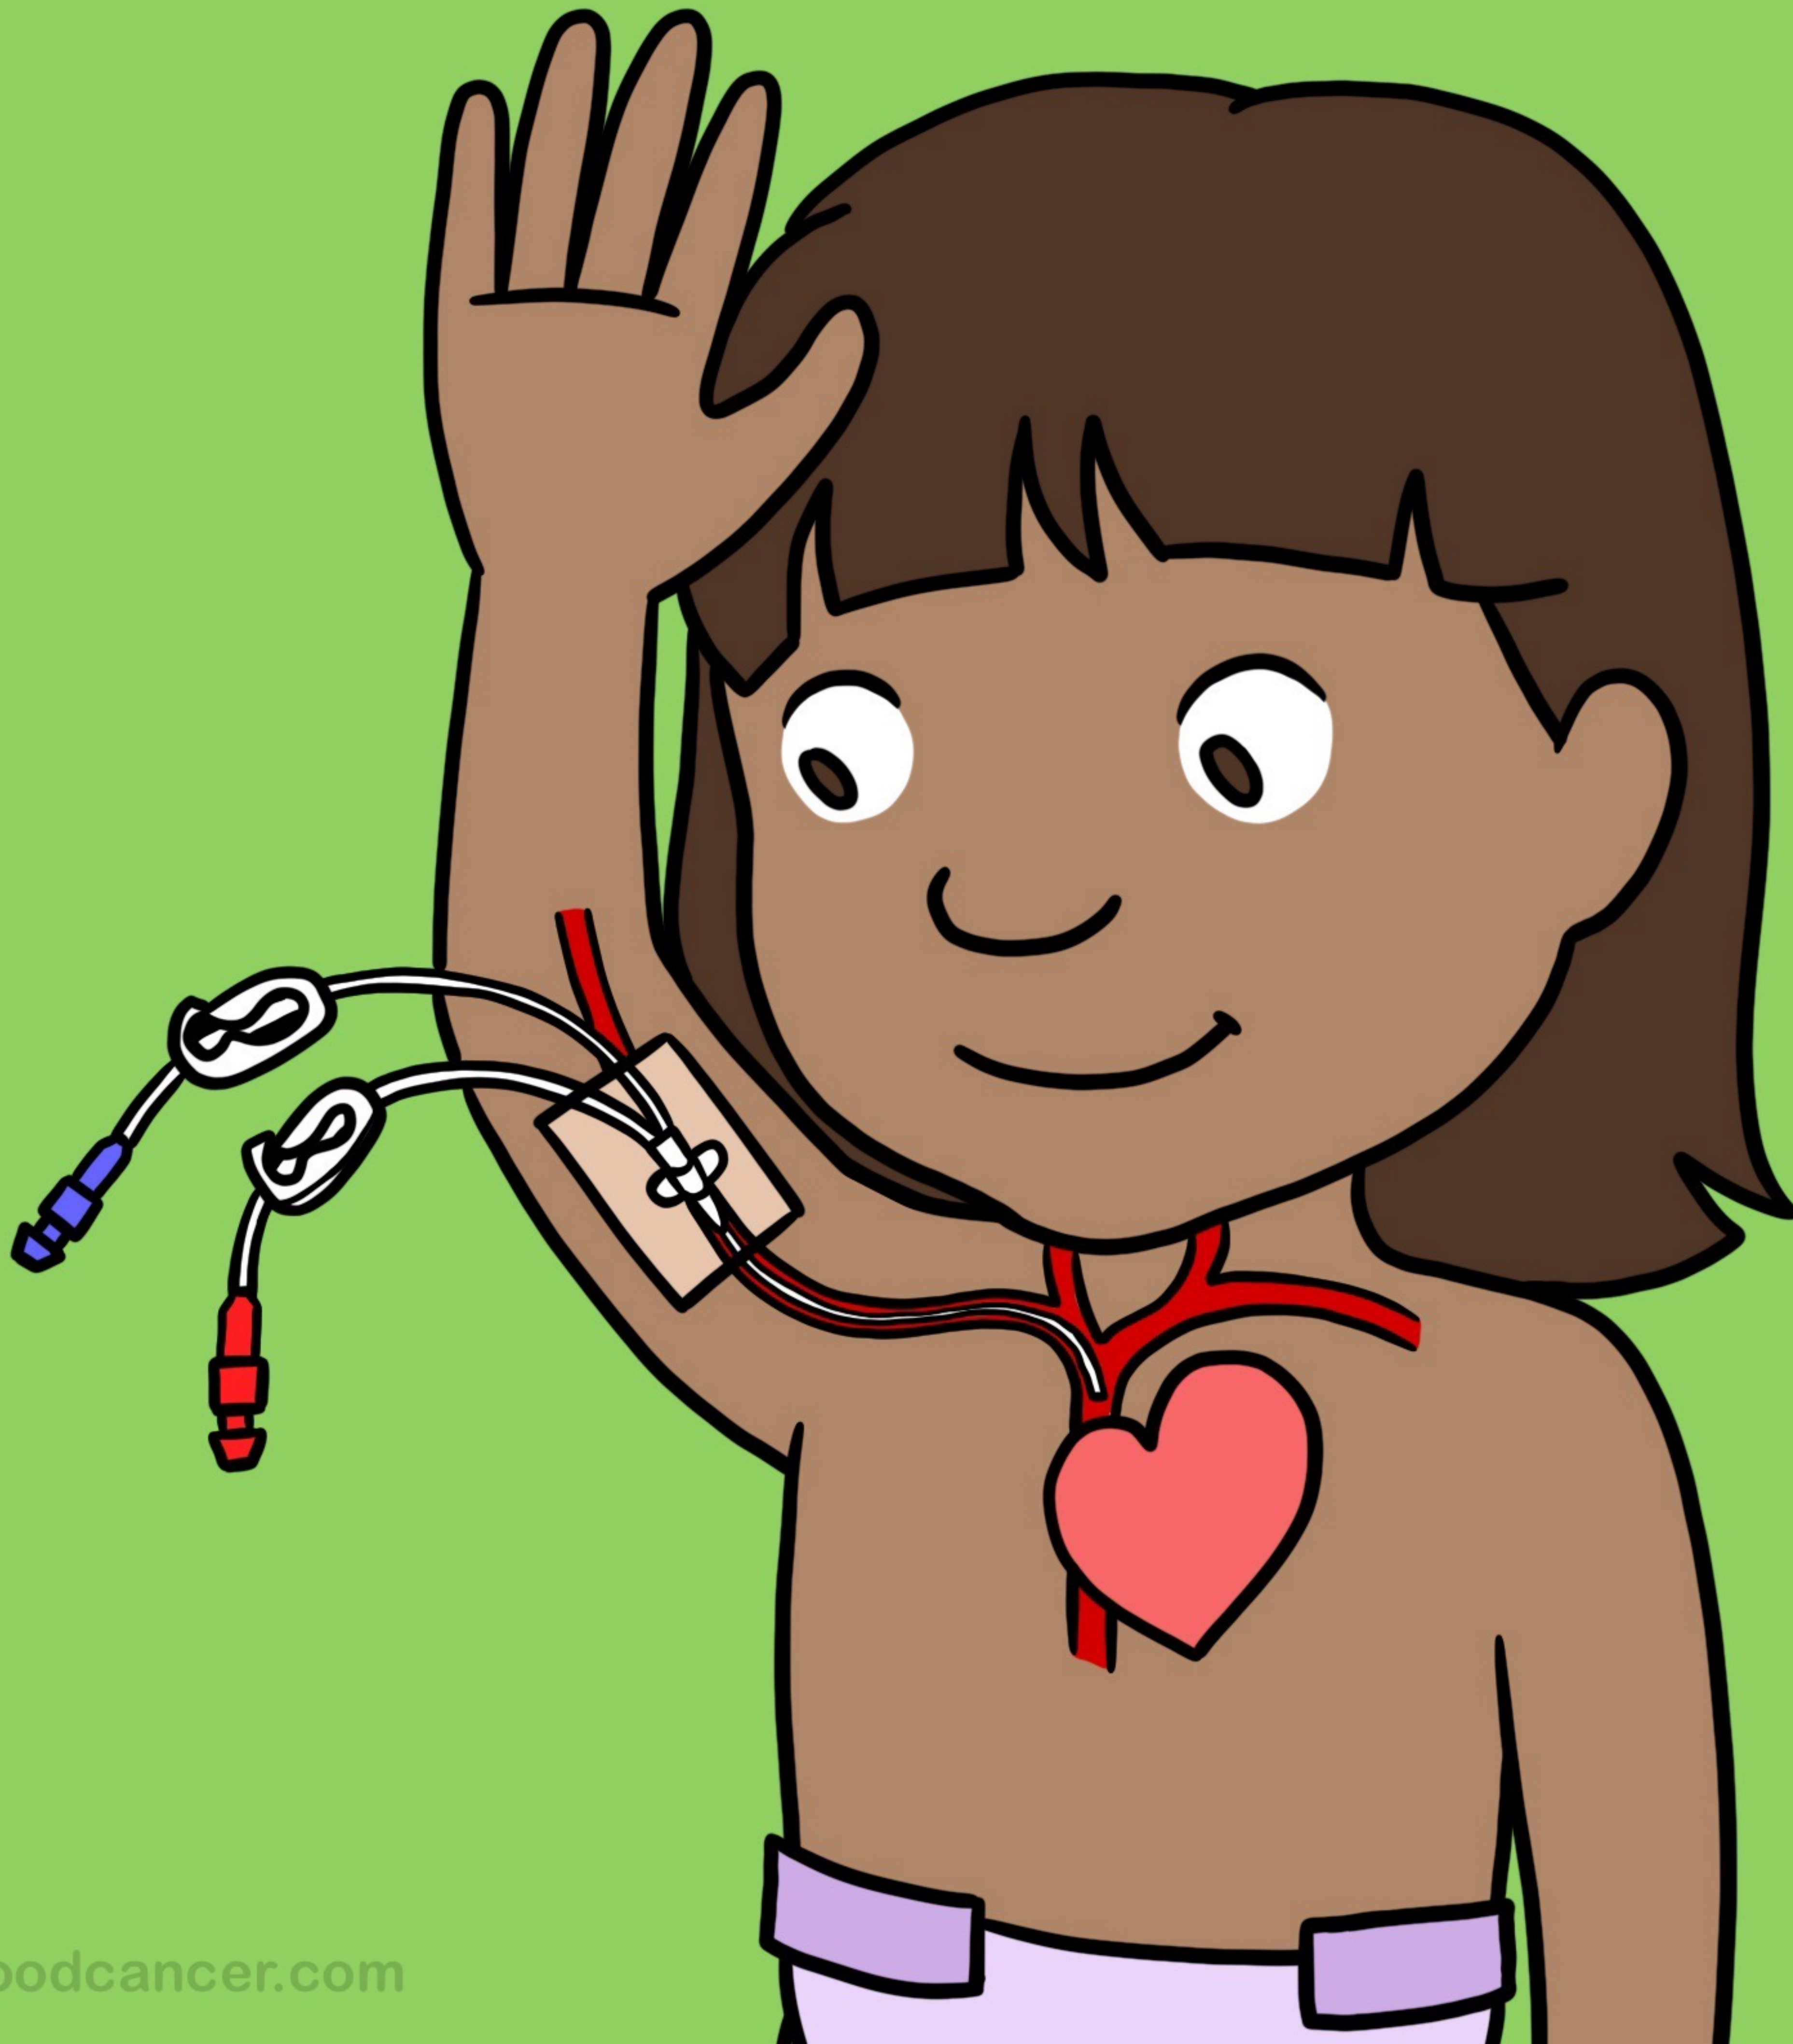

By Angus Olsen

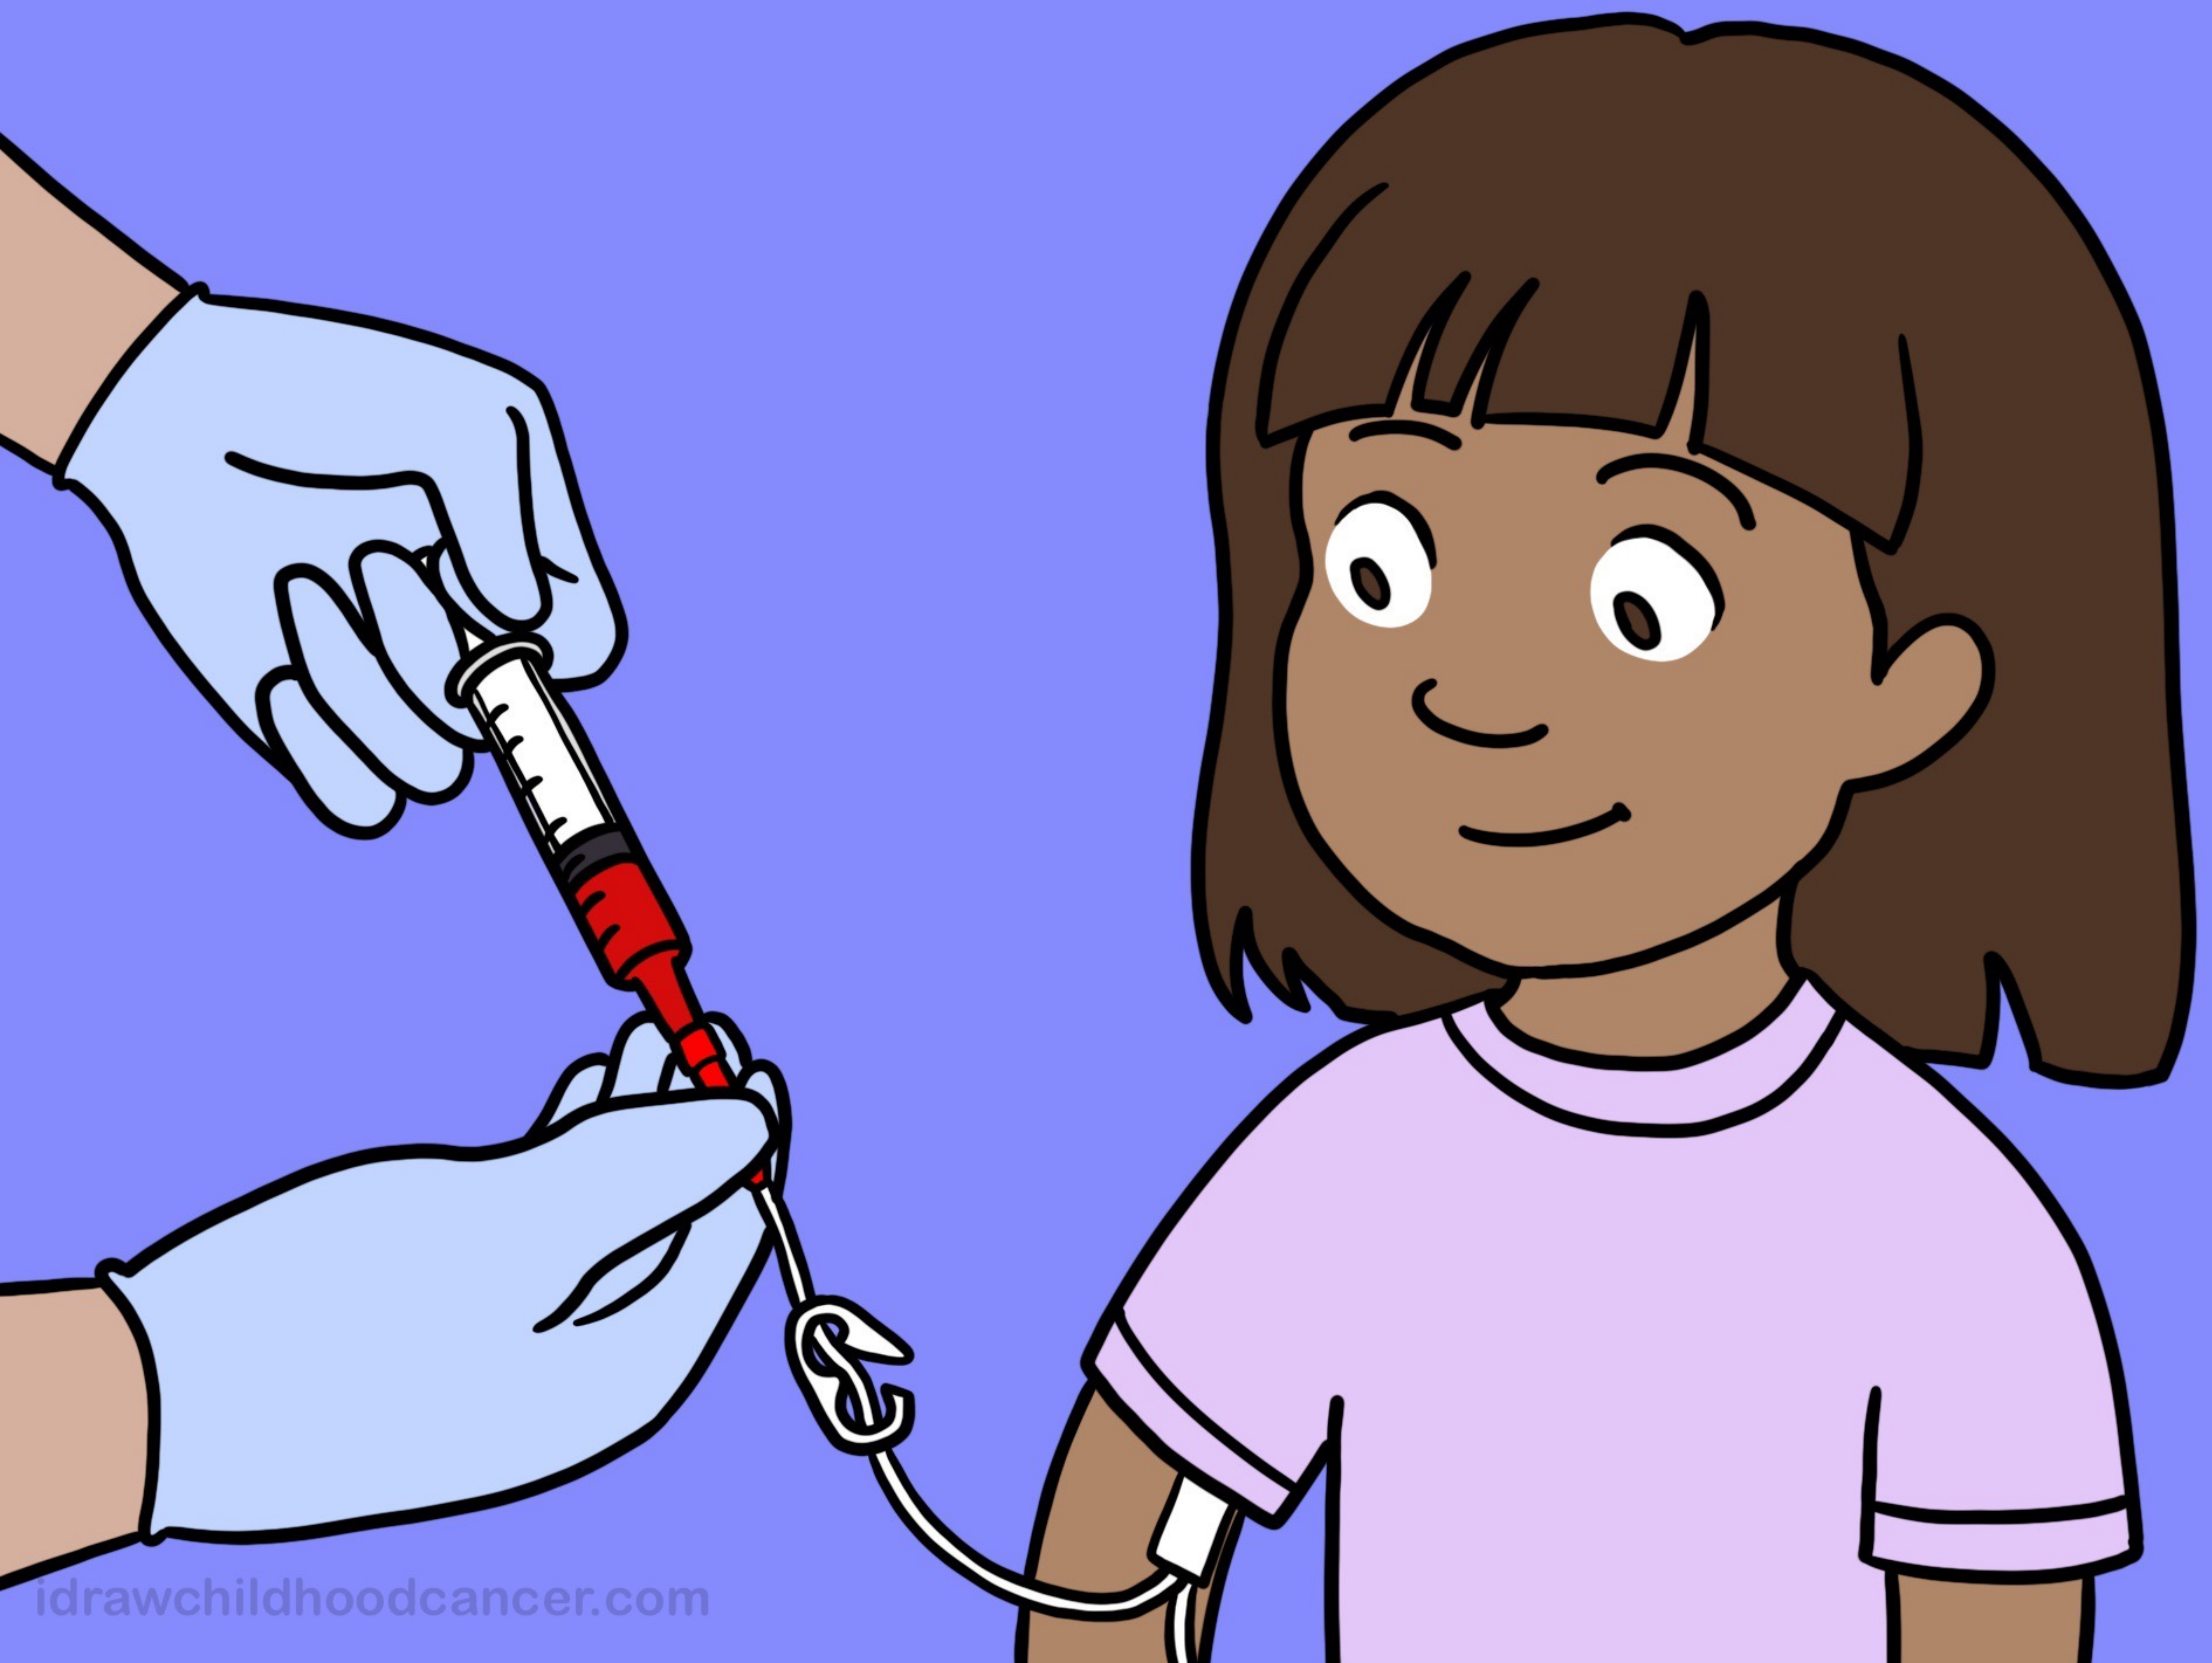

This is my PICC line.  
I think it's like a little wing.

**My PICC line has a tube that goes inside my body to where my blood is.**

**My PICC line has lots of uses.  
It can be used to take some blood.**

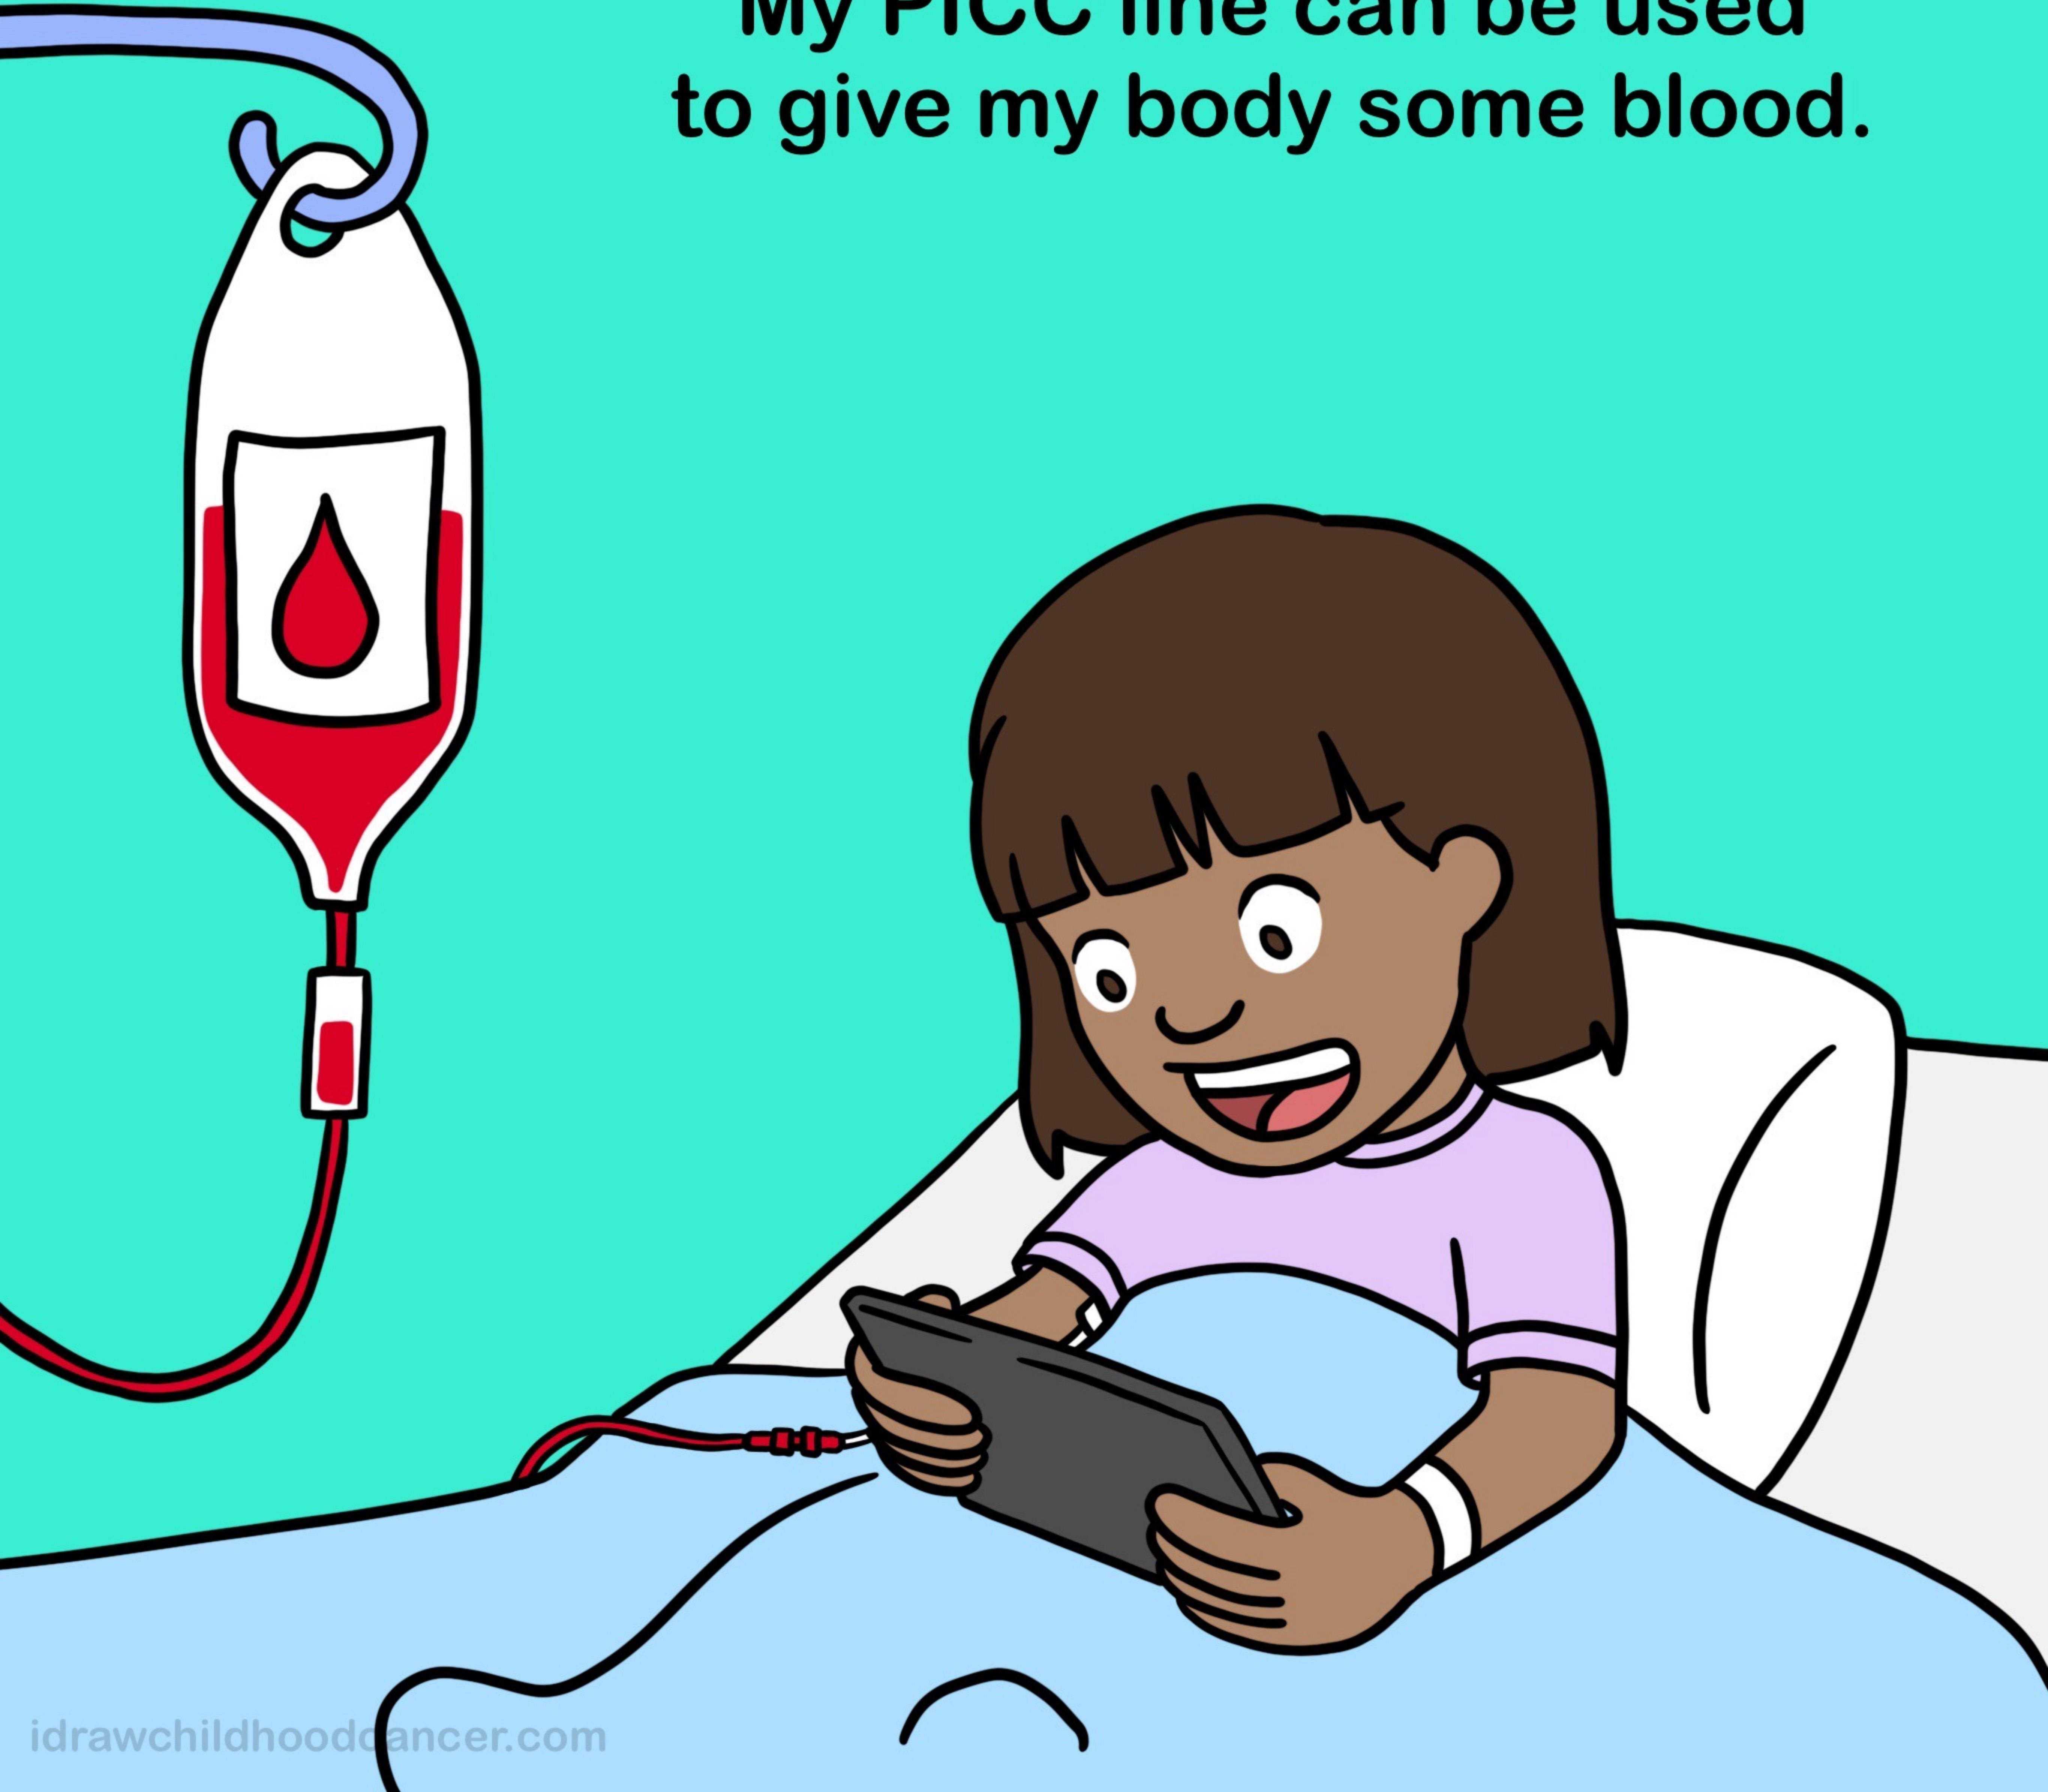

My PICC line can be used  
to give my body a drink.

My PICC line can be used to give me some medicine.

**My PICC line can be used  
to give my body some blood.**

I try to be careful and not touch  
my PICC line, or get it wet.

The nurse makes sure  
my PICC line is nice  
and clean. The nurse  
says I am very brave.

I have a PICC line.  
It is very special  
and very important.
